MISCELLANY

YEARBOOK

Producing Brophy's twenty-second edition of the yearbook has not been easy, as if it ever were. We used a complete paste-up system, where the final product is left entirely up to us, and not the printer. We moved into the gym basement, along with all of the other student offices. We gained a new moderator, Fr. John Becker, S.J. We used a new printer, which meant that we had to stick to our deadlines much more closely. Aside from these few items, life on the yearbook staff is the same as it always has been.

We recognized, and kept in mind, this little fact when we planned out the yearbook: You should always shoot for the top; but, if you cannot even come close, the result is almost always a failure. So, we settled for producing just a plain, simple, coherent yearbook. I believe that The Tower is just that: nothing pretty, fancy, colorful, witty, or breathtaking; but what there is, is good.

The responsibilities of the staff this year were not clearly apportioned, as they have been in past years; instead, everyone did a great deal of everything. I found from experience that if I wanted something done, I had to do it myself. The people who are responsible for (or guilty of, depending on how you look at it) the book are listed below. Thank you, all.

Glaze Tool & Die

Our reputation is included at no extra cost.

When you buy a new car, you're really buying a lot more than just the steel, aluminum, and other materials that go into the construction of an automobile. You're also buying a pledge from the dealer to work for your total satisfaction.

That's why a car dealer's reputation is one of his most important products. But really, his reputation is not just made by *his* promises. A good reputation comes from hundreds of happy, satisfied customers... people who tell other people about being treated fairly.

So, if you're in the market for a new car, ask your friends or neighbors about us. Our customers are our best form of advertising.
